Cyber Security - Meeting Modern Challenges

As the headlines concerning data breaches and hack attacks continue to mount, so too do concerns regarding data protection. Where Cyber Security was once an IT Department concern, it is now a concern of an entire organization. Not only is the company potentially liable, but its directors and officers could be found personally liable as well. As breaches become more commonplace, how do you protect yourself and your organization? We will discuss lessons learned from recent cases, legal obligations in a breach situation, pre and post breach strategies, and tips and tricks concerning protection and detection of suspicious behaviour so that you can effectively protect your critical data, and the reputation of your business.

This seminar is recommended for Inhouse Counsel and General Counsel, IT/IS Leaders, COO's, Privacy and Risk Officers, and Data and Regulatory Compliance Officers

Discussion Topics:

1. Cyber Insurance - Mitigating Your Risk
George P. Longo, President, Towerhill Insurance Brokers Inc.
2. Lessons Learned from Recent Cases
Rachel Goldenberg, Associate, WeirFoulds LLP
3. Breach Notification Obligations in Canada
Debbie Tarshis, Partner, WeirFoulds
4. Tips to Limit and Deal with a Breach
Ralph Kroman, Partner, WeirFoulds
