They engage in private equity and venture investments, mergers and acquisitions, leveraged transactions, recapitalizations, and debt financing, including convertible debt and mezzanine financing, strategic relationships and joint ventures. Our clients also take advantage of our securities law capabilities to raise capital through private placements, public offerings and tax structured securities such as flow-through shares.

Our lawyers act for private equity funds, hedge funds, sovereign wealth funds, financial institutions, and institutional and private investors. We advise clients on fund formation, fund acquisitions and divestitures, management buyouts, and other ongoing governance and regulatory matters. We provide advice on investor rights, exit strategies and management compensation. We also represent clients in partnership and shareholder disputes.

We take a multi-disciplinary approach to our private equity files, engaging our corporate, securities, tax, financial service, real estate, banking, technology and IP, and litigation lawyers as necessary to ensure our clients receive excellent advice that is tailored to their needs.
