

Tax

Our lawyers advise on all areas of federal and provincial taxation. We have extensive experience advising Canadian and international clients on mergers and acquisitions, reorganizations, business and investment structuring, financings, securities offerings, executive compensation and other employment tax issues, individual and estate tax planning, and a broad range of corporate tax matters.

WeirFoulds also represents clients at every stage of the tax dispute resolution process, from audits through to administrative appeals and at every level of court. Confident in our ability to produce results, we regularly offer clients contingency or success fee billing alternatives if they wish to shift some of the risk to us.

Our tax lawyers are frequently called upon to present on tax topics at conferences and other venues and are published regularly in preeminent tax journals.
